RESPONSE TO FINAL REJECTION AND REQUEST FOR
RECONSIDERATION

This is being filed in response to the Final Office Action of December 08, 1997, in the above referenced application.

IN THE CLAIMS :

Delete claims 11 through 31 inclusive.

Add the following claims:

--32. A double-ended wrench comprising:

two wrench heads positioned, one at each end of an elongated handle, a wrench neck area between each said wrench head and said elongated handle; and, a gripping means formed shorter than and for movement along said elongated handle, said gripping means being positionable at each end of said elongated handle without removal from said
